
Product Description:

CHEM-EXTENDER is a fluffed and dried synthetic polyethylene pulp. It is non-hazardous, resists mildew and biological growth and can be used in a wide variety of applications including adhesives, textured, cement, or industrial coatings and sealants. It is used in various applications to improve their dimensional stability, strength, and crack resistances.

Technical Data:

Packaging:	1 KG
Color:	White fluffy fibers
Odor:	No significant odor
Melting Point:	125 – 135 °C
Specific gravity:	0.96 g/cm ³
Shelf Life:	2 years in unopened containers
VOC:	0 g/L

Caution:

Fiber dust should be considered a nuisance. Avoid breathing dust and control dust accumulations. Avoid the use of air jets if possible to prevent fibers from becoming airborne. Wash hands and skin thoroughly after handling. Consult the material safety data sheet for further information.

Consult the safety data sheet for further information.
