# SAFETY DATA SHEET (SDS)

## Section 1. Identification

<table>
<thead>
<tr>
<th>Product identifier</th>
<th>CHEM 1000 WT, Part A</th>
</tr>
</thead>
<tbody>
<tr>
<td>Other means of identification</td>
<td>CHEM 1000 WT -A</td>
</tr>
<tr>
<td>Recommended use and restrictions on use</td>
<td>Floor Coating</td>
</tr>
<tr>
<td>Initial supplier identifier</td>
<td>Chemtec 913 Michelin Laval (Canada) H7L-5B6 450-629-1717</td>
</tr>
<tr>
<td>Emergency telephone number/restriction on use</td>
<td>Canada – CANUTEC Number 24 hours 613-996-6666</td>
</tr>
</tbody>
</table>

## Section 2. Hazard Identification

### Classification of hazardous product (name of the category or subcategory of the hazard class)

- Skin sensitization (Category 1)
- Hazardous to the aquatic environment, long-term hazard (Category 3)

### Information elements (symbols, signal words, hazard statements and precautionary statements of the category/subcategory)

**Warning**

- H317 May cause an allergic skin reaction
- H412 Harmful to aquatic life with long lasting effects

**Prevention**

- P261 Avoid breathing dust/fume/gas/mist/vapors/spray. P272 Contaminated work clothing should not be allowed out of the workplace. P273 Avoid release to the environment. P280 Wear gloves/protective clothing/gloves/eye protection/face protection.

**Response**

- IF ON SKIN: P302 + P352 Wash with plenty of water. P333 + P313 If skin irritation or rash occurs: Get medical attention. P362 + P364 Take off contaminated clothing and wash it before reuse.

### Storage

- P403 Store in a well-ventilated place.

### Disposal

- P501 Dispose of contents/container into safe container in accordance with local, regional or national regulations.

### Other hazards known

- None

## Section 3. Composition/Information on Ingredients

<table>
<thead>
<tr>
<th>Chemical name (common name/synonyms)</th>
<th>CAS number or other</th>
<th>Concentration (%)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Aspartic Acid, N,N’-(methylenedi-4,1-cyclohexanediy)bis-, 1,1’,4,4’-tetraethyl ester</td>
<td>136210-30-5</td>
<td>&lt; 70 %</td>
</tr>
<tr>
<td>Polyaspartic Polyurea Resin</td>
<td>136210-32-7</td>
<td>&lt; 50 %</td>
</tr>
</tbody>
</table>

*Statement - This safety data sheet provides concentration range(s) instead of the actual concentration(s) considered trade secret(s).

## Section 4. First-Aid Measures

### Inhalation

- IF INHALED: If overexposure remove person to fresh air and keep comfortable for breathing. If symptoms persist, seek medical attention.

### Ingestion

- IF SWALLOWED: Immediately call a doctor. Prevent aspiration of vomit.

### Skin contact

- IF ON SKIN: Take off contaminated clothing, wash immediately with soap and plenty of water (20 - 30 minutes). If skin irritation occurs: Get medical attention. Wash clothing before reuse. If symptoms persist, seek medical attention.

### Eye contact

- IF IN EYES, Rinse cautiously with water for several minutes (20 - 30 minutes). Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical attention.

### Most important symptoms and effects (acute or delayed)

- May cause an allergic skin reaction.

### Indication of immediate medical attention/special treatment

- In all cases, call a doctor. Do not forget this document.

## Section 5. Fire-Fighting Measures

### Specific hazards of the hazardous product (hazardous combustion products)

- Toxic fumes.

### Suitable and unsuitable extinguishing media

- In case of fire: Use Carbon dioxide (CO₂), dry chemical, alcohol resistant foam, dry sand, water.

### Special protective equipment and precautions for fire-fighters

- During a fire, irritating/toxic smoke and fumes may be generated. Do not enter fire area without proper protection. Firefighters should wear proper protective equipment and self-contained breathing apparatus with full face piece.

## Section 6. Accidental Release Measures

### Personal precautions, protective equipment and emergency procedures
Restrict access to area until completion of clean-up. Ensure clean-up is conducted by trained personnel only. All persons dealing with clean-up should wear the appropriate protective equipment (See Section 8). Prevent the spill spread into drains, sewers, water supplies, or soil.

**Methods and materials for containment and cleaning up**

Avoid prolonged exposure. Ventilate area of release. Stop the leak if it can be done safely. Stop leak if you can do it without risk. Do not touch or walk through spilled material. Spill should be contained with inert material and disposed into suitable retaining area. Small volumes of liquid may be contained or absorbed into an appropriate absorbent. Keep away from all watercourses. Do not flush down storm or sanitary sewer. Dispose of in accordance with local, provincial and federal regulations.

### Section 7. Handling and Storage

**Precautions for safe handling**

Avoid breathing dust/fume/gas/mist/vapors/spray. Contaminated work clothing should not be allowed out of the workplace. Avoid release to the environment. Wear gloves/protective clothing/gloves/eye protection/face protection.

**Conditions for safe storage, including any incompatibilities**

Store in a cool, well-ventilated area. Keep container closed when not in use. Do not handle or store near open flames, heat or other sources of ignition. Store away from incompatible materials (Section 10). Inspect all incoming containers to make sure they are properly labelled and not damaged. Storage area should be clearly identified, clear of obstruction and accessible only to trained personnel. Inspect periodically for damage or leaks. Storage temperature: 16 - 27 °C.

### Section 8. Exposure Controls/Personal Protection

**Control parameters (biological limit values or exposure limit values and source of those values)**

- Exposure limits ACGIH – TLV - TWA Not available

**Appropriate engineering controls**

Use product in well-ventilated areas. Do not spray the product. Local exhaust ventilation system is recommended to maintain concentrations of contaminants below exposure limits. Supply emergency safety/quick-drench shower, eyewash station and washing facilities available in work area and near handling area. Where such systems are not effective, wear suitable personal protection equipment which performs satisfactorily and meets recognized standards.

**Individual protection measures/personal protective equipment**

- Gloves: Neoprene gloves or equivalent; Clothing: Shirts with long sleeves, long pants; Respiratory: Not required if working area is well ventilated. Use a NIOSH approved respirators if the exposure limits are unknown; Equipment: Safety glasses, chemical resistant. Special instructions for protection and hygiene: Wash hands/nails/face thoroughly after handling. Do not eat, drink or smoke when using this product. Practice good personal hygiene after using this material. Remove and wash contaminated work clothing before re-use. Educate and train employees in the safe use and handling of this product. Follow all label instructions.

### Section 9. Physical and Chemical Properties

### Section 10. Stability and Reactivity

**Reactivity**

- Stable under normal conditions.

**Chemical stability**

- Yes, Stable under the recommended storage and handling conditions prescribed.

**Possibility of hazardous reactions**

- Non under normal conditions of storage and use.

**Conditions to avoid (static discharge, shock or vibration)**

- Excess heat

**Incompatible materials**

- Oxidizing agents, acid and isocyanate.

**Hazardous decomposition products**

- Ammonia, nitrogen oxides, carbon mono and dioxide CO2 (CO), amines.

### Section 11. Toxicological Information

**Information on the likely routes of exposure (inhalation, ingestion, skin and eye contact)**

- May cause an allergic skin reaction.

**Symptoms related to the physical, chemical and toxicological characteristics**

- Skin irritation.

**Delayed and immediate effects (chronic effects from short-term and long-term exposure)**
Skin Sensitization – May cause allergic skin reaction; Respiratory Sensitization – No data available; Germ Cell Mutagenicity – No data available; Carcinogenicity – No ingredient listed by IARC, ACGIH, NTP or OSHA; Reproductive Toxicity – No data available; Specific Target Organ Toxicity — Single Exposure – No data available; Specific Target Organ Toxicity — Repeated Exposure – No data available; Aspiration Hazard – No data available; Health Hazards Not Otherwise Classified – No data available.

Numerical measures of toxicity (ATE; LD₅₀ & LC₅₀)
CAS 136210-30-5: LD₅₀ Oral/Dermal - Rat > 2.000 mg/kg; LC₅₀ Inhalation - Rat > 4.224 mg/m³ 4hrs; ATE not available in this document.

Section 12. Ecological Information

Ecotoxicity (aquatic and terrestrial information)
Toxicity to Fish: CAS 136210-30-5: LC₅₀: 66mg/l (Zebra fish (Brachydanio rerio) 96h);
Toxicity to Aquatic Invertebrates: CAS 136210-30-5 EC₅₀: 88.6 mg/l (Water flea (Daphnia magna) 48h);
Toxicity to Aquatic and Terrestrial Plants: CAS 136210-30-5 EC₅₀: 3110 mg/l (Green algae (Scenedesmus subspicatus) 72h); 113 mg/l, 72h.

Persistence and degradability
CAS 136210-30-5 13% exposure time: 28 days, Not readily biodegradable.

Bioaccumulative potential
No data available

Mobility in Soil
No data available

Other adverse effects
Harmful to aquatic life with long lasting effects.

Section 13. Disposal Considerations

Information on safe handling for disposal/methods of disposal/contaminated packaging
Dispose of contents/container into safe container in accordance with local, regional or national regulations.

Section 14. Transport Information

UN number; Proper shipping name; Class(es); Packing group (PG) of the TDG Regulations
Not regulated

UN number; Proper shipping name; Class(es); Packing group (PG) of the IMDG (maritime)
Not regulated

UN number; Proper shipping name; Class(es); Packing group (PG) of the IATA (air)
Not regulated

Special precautions (transport/conveyance) None
Environmental hazards (IMDG or other) None
Bulk transport (usually more than 450 L in capacity) None

Section 15. Regulatory Information

Safety/health Canadian regulations specifics
This product has been classified in accordance with the hazard criteria of the Hazardous Products Regulations (HPR).

Environmental Canadian regulations specifics
Refer to Section 3 for ingredient(s) of the DSL

Safety/health/environmental outside regulations specifics
United States OSHA information: This product is regulated according to OSHA (29 CFR);
United States EPA (Environmental Protection Agency) information: 40 CFR Refer to the ingredients listed in Section 3 & Sections 12; 13 & 14.
United States TCSA information: Refer to the ingredients listed in Section 3.

Section 16. Other Information

Date of the latest revision of the safety data sheet
February 04, 2018 - version 1
