<td>CHEM 1000 WT-B</td>
</tr>
<tr>
<td>Recommended use and restrictions on use</td>
<td>Floor Coating</td>
</tr>
<tr>
<td>Initial supplier identifier</td>
<td>Chemtec 913 Michelin Laval (Canada) H5L-5B6 450-629-1717</td>
</tr>
<tr>
<td>Emergency telephone number/restriction on use</td>
<td>Canada – CANUTEC Number 24 hours 613-996-6666</td>
</tr>
</tbody>
</table>

Section 2. Hazard Identification

Classification of hazardous product (name of the category or subcategory of the hazard class)

- Skin corrosion/irritation (Category 2)
- Serious eye damage/eye irritation (Category 2B)
- Skin sensitization (Category 1)
- Acute toxicity, Inhalation (Category 4)
- Sensitisation Respiratory (Category 1)
- Specific target organ toxicity, single exposure; Respiratory tract irritation (STOT, SE) (Category 3)
- Specific target organ toxicity, repeated exposure (STOT, RE) (Category 2)

Information elements (symbols, signal words, hazard statements and precautionary statements of the category/subcategory)

**Warning**

H315 Causes skin irritation.

H317 May cause an allergic skin reaction.

H332 Harmful if inhaled

H334 May cause allergy or asthma symptoms or breathing difficulties if inhaled

H335 May cause respiratory irritation

H373 May cause damage to organs through prolonged or repeated exposure

**Prevention**

P260 + P261 Do not/Avoid breathing dust/fume/gas/mist/vapors/spray. P264 Wash hands/nails/face/eyes thoroughly after handling. P270 Do not eat, drink or smoke when using this product.
P271 Use only outdoors or in a well ventilated area.
P272 Contaminated work clothing should not be allowed out of the workplace.
P280 Wear gloves/protective clothing/gloves/eye protection/face protection.
P284 (In case of inadequate ventilation) wear respiratory protection.

**Response**

IF ON SKIN: P302 + P352 Wash with plenty of water. P332 + P313 If skin irritation occurs: get medical advice/attention. P362 + P364 Take off contaminated clothing and wash it before reuse.

IF INHALED: P304 + P340 Remove person to fresh air and keep comfortable for breathing. P312 Call a doctor if you feel unwell.
P342 + P311 If experiencing respiratory symptoms: Call a POISON CENTER/doctor

IF IN EYES: P305 + P351 + P338, Rinse cautiously with water. Remove contact lenses, if present and easy to do. Continue rinsing. P337 + P313 If eye irritation persists: Get medical attention.

IN CASE OF FIRE: P370 + P378 Use manufacturer/supplier or the competent authority to specify appropriate media

**Storage**

P403 + P233 Store in a well-ventilated place. Keep container tightly closed.

**Disposal**

P501 Dispose of contents/container into safe container in accordance with local, regional or national regulations.

**Other hazards known**

None

Section 3. Composition/Information on Ingredients

<table>
<thead>
<tr>
<th>Chemical name (common name/synonyms)</th>

<td>822-06-0</td>
<td>&lt; 0.5 %</td>
</tr>
</tbody>
</table>

*Statement - This safety data sheet provides concentration range(s) instead of the actual concentration(s) considered trade secret(s).

Section 4. First-aid measures

**Inhalation**

IF INHALED: If overexposure remove person to fresh air and keep comfortable for breathing. If symptoms persist, seek medical attention.

**Ingestion**

IF SWALLOWED: Immediately call a doctor. Prevent aspiration of vomit.

**Skin contact**

IF ON SKIN: Take off contaminated clothing, wash immediately with soap and plenty of water (20 - 30 minutes). If skin
irritation occurs: Get medical attention. Wash clothing before reuse. If symptoms persist, seek medical attention.

Eye contact

IF IN EYES, Rinse cautiously with water for several minutes (20-30 minutes). Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical attention.

Most important symptoms and effects (acute or delayed)

Causes skin and eye irritation. May cause an allergic skin reaction. Harmful if inhaled. May cause allergy or asthma symptoms or breathing difficulties if inhaled. May cause respiratory irritation. May cause damage to organs through prolonged or repeated exposure.

Indication of immediate medical attention/special treatment

In all cases, call a doctor. Do not forget this document. An individual having a dermal or pulmonary sensitization reaction to this material should be removed from further exposure to any disocyanate.

Section 5. Fire-Fighting Measures

Specific hazards of the hazardous product (hazardous combustion products)

Toxic fumes.

Suitable and unsuitable extinguishing media

In case of fire: Use limestone powder, carbon dioxide (CO₂), dry chemical.

Special protective equipment and precautions for fire-fighters

During a fire, irritating/toxic fumes may be generated. Do not enter fire area without proper protection. Firefighters should wear proper protective equipment as required.

Section 6. Accidental Release Measures

Personal precautions, protective equipment and emergency procedures

Evacuate non-emergency personnel. Isolate the area and prevent access. Control source of the leak. Ensure clean-up is conducted by trained personnel only. All persons dealing with clean-up should wear the appropriate protective equipment (See Section 8). Prevent the spill spread into drains, sewers, water supplies, or soil.

Methods and materials for containment and cleaning up

Avoid prolonged exposure. Spill should be contained with inert material and disposed into suitable retaining area. Small volumes of liquid may be contained or absorbed into an appropriate absorbent. Keep away from all watercourses. Do not flush down storm or sanitary sewers or drains, sewers, water supplies, or soil.

Section 7. Handling and Storage

Precautions for safe handling

Do not/Avoid breathing dust/fume/gas/mist/vapors/spray. Wash hands/nails/face/eyes thoroughly after handling. Do not eat, drink or smoke when using this product. Use only outdoors or in a well-ventilated area. Contaminated work clothing should not be allowed out of the workplace. Wear gloves/protection clothing/gloves/eye protection/face protection. (In case of inadequate ventilation) wear respiratory protection.

Conditions for safe storage, including any incompatibilities

Store in a cool, well-ventilated area. Keep container closed when not in use. Do not handle or store near open flames, heat or other sources of ignition. Store away from incompatible materials (Section 10). Inspect all incoming containers to make sure they are properly labelled and not damaged. Storage area should be clearly identified, clear of obstruction and accessible only to trained personnel. Inspect periodically for damage or leaks. Storage temperature: 16 - 27 °C.

Section 8. Exposure Controls/Personal Protection

Control parameters (biological limit values or exposure limit values and source of those values)

Exposure limits ACGIH – TLV; TWA: CAS 28182-81-2: 0.5 mg/m³; CAS 822-06-0: 0.02 mg/m³

Appropriate engineering controls

Use product in well-ventilated areas. Do not spray the product. Local exhaust ventilation system is recommended to maintain concentrations of contaminants below exposure limits. Supply emergency safety/quick-drench shower, eyewash station and washing facilities available in work area and near handling area. Where such systems are not effective, wear suitable personal protection equipment which performs satisfactorily and meets recognized standards.

Individual protection measures/personal protective equipment

Gloves: Neopren gloves or equivalent; Clothing: Shirts with long sleeves, long pants; Respiratory: Not required if working area is well ventilated. Use a NIOSH approved respirators if the exposure limits are unknown; Equipment: Safety glasses, chemical resistant. Special instructions for protection and hygiene: Wash hands/nails/face thoroughly after handling. Do not eat, drink or smoke when using this product. Practice good personal hygiene after using this material. Remove and wash contaminated work clothing before re-use. Educate and train employees in the safe use and handling of this product. Follow all label instructions.

Section 9. Physical and Chemical Properties

### Section 11. Toxicological Information

#### Information on the likely routes of exposure (inhalation, ingestion, skin and eye contact)

Causes skin and eye irritation. May cause an allergic skin reaction. Harmful if inhaled. May cause allergy or asthma symptoms or breathing difficulties if inhaled. May cause respiratory irritation. May cause damage to organs through prolonged or repeated exposure.

#### Symptoms related to the physical, chemical and toxicological characteristics

No specific information available.

#### Delayed and immediate effects (chronic effects from short-term and long-term exposure)

Skin Sensitization – May cause allergic skin reaction. Skin disorders and Allergies; Respiratory Sensitization – No data available;

Cell Mutagenicity – Animal genetic toxicity studies were negative (Salmonella typhimurium, Metabolic Activation: with/without);

Carcinogenicity – No ingredient listed by IARC, ACGIH, NTP or OSHA; Reproductive Toxicity – No data available;

Specific Target Organ Toxicity — Single Exposure – No data available; Specific Target Organ Toxicity — Repeated Exposure – 3 weeks inhalation: NOAEL: 3.7-4.3 mg/m³, (rat); 90 days inhalation: NOAEL: 3.3-3.4 mg/m³, (rat)  irritation to lungs and nasal cavity;

Aspiration Hazard – Based on physical properties, not likely to be an aspiration hazard; Health Hazards Not Otherwise Classified – No data available.

#### Numerical measures of toxicity (ATE; LD₅₀ & LC₅₀)

CAS 28182-81-2 LD₅₀ Oral - Rat - > 5,000 mg/kg; LD₅₀ Dermal – Rabbit – 5,000 mg/kg; LC₅₀ Inhalation - Rat – 390-453 mg/m³ 4hrs; ATE not available in this document.

#### Ecotoxicity (aquatic and terrestrial information)

Acute and prolonged Toxicity to Fish: CAS 28182-81-2: Acute and Prolonged LC₅₀: > 100 mg/L (Zebrafish (brachydanio rerio) 96h);

Acute Toxicity to Aquatic Invertebrates: CAS 28182-81-2 EC₅₀: > 100 mg/L (Water flea (Daphnia magna) 48 h);

Toxicity to Aquatic Plants: CAS 28182-81-2 EC₅₀: > 1,000 mg/L, (Green algae (Scenedesmus subspicatus) 72 h);

Toxicity to Microorganisms: CAS 28182-81-2 EC₅₀: > 1,000 mg/L, (Activated sludge microorganism, 3 h).

#### Persistence and degradability

CAS 28182-81-2: 0%, Exposure time: 28 Days, Not readily biodegradable.

#### Bioaccumulative potential

No data available

#### Mobility in soil

No data available

#### Other adverse effects

No data available

### Section 13. Disposal Considerations

Information on safe handling for disposal/methods of disposal/contaminated packaging

Dispose of contents/container into safe container in accordance with local, regional or national regulations.

### Section 14. Transport Information

#### UN number; Proper shipping name; Class(es); Packing group (PG) of the TDG Regulations

Not regulated

#### UN number; Proper shipping name; Class(es); Packing group (PG) of the IMDG (maritime)

Not regulated

#### UN number; Proper shipping name; Class(es); Packing group (PG) of the IATA (air)

Not regulated

#### Special precautions (transport/conveyance)

None

#### Environmental hazards (IMDG or other)

None

#### Bulk transport (usually more than 450 L in capacity)

None

### Section 15. Regulatory Information

#### Safety/health Canadian regulations specifics

This product has been classified in accordance with the hazard criteria of the Hazardous Products Regulations (HPR).

#### Environmental Canadian regulations specifics

Refer to Section 3 for ingredient(s) of the DSL.
United States OSHA information: This product is regulated according to OSHA (29 CFR).
United States EPA (Environmental Protection Agency) information: 40 CFR Refer to the ingredients listed in Section 3 & Sections 12; 13 & 14.
United States TCSA information: Refer to the ingredients listed in Section 3.

### Section 16. Other Information

| Date of the latest revision of the safety data sheet | February 04, 2018 - version 1 |
| References | Safety Data Sheets from manufacturer/supplier & from Sigma-Aldrich.com & Echa.eurpea.eu |
